

GoNapht RED 3G

GoNapht are products for textile dyeing and printing.

Fields of Application:

- GoNapht are dyes developed to meet international market standards in purity, solubility, color strength and nuance.

Features:

- The product has good stability if it is stored according to SDS guidelines.

Physicochemical parameters:

Appearance	Colorless to yellow powder.
Solubility	Soluble in water, under stirring.

Application:

Recipe suggested	NAPHTHOL BATH		
	Water (90°C)	200	g/l
	Goldgen NF	10 – 12	g/l
	GoNapht AS	10 – 12	g/l
	Caustic soda 38°Bé	10 – 12	g/l
	Water (90°C)	764 – 770	g/l
	Maintain the temperature at 90 °C, under stirring throughout the process.		
	Pick-up	70	%
	Article	100% CO	
	DEVELOPMENT		
Water	954	g/l	
Goldperse NDS	5	g/l	
GoNapht	x	g/l	
Maintain the whole process at room temperature, under agitation.			
Pick-up	70	%	
Article	100% CO
